

ChArUco · 7 x 9 squares of 25 mm · 18 mm markers · DICT_4X4_250

--pattern charuco --size 6x8 --square 0.025 --charuco_marker_size 0.018 --aruco_dict 4x4_250

PRINT AT 100% — "Actual size", never "Fit to page". Mount it FLAT: any bow biases the intrinsics.

Check the bar with a ruler. If it is not exactly 100 mm, measure one square and pass THAT size to the calibrator.
